TECHNICAL BULLETIN #111

TECHNICAL BULLETIN # 111

Item #1 Mirage Trap System

The TRAP system is Mirage's new MARD. Mirage containers are now coming off the production line with the TRAP system installed. Mirage is still studying the possibility of retro fit kits for their older systems.

Action to be taken: All riggers should familiarize themselves with the packing and operating procedures of the TRAP system. Tutorial videos are available on the Mirage website.

Item #2 Rigging of the Javelin Odyssey split Collins Lanyard

Sunpath has published a new set of instructions dated 1 Jan 2014. For the correct installation of the Split Collins Lanyard. These instructions are available from Sunpath or through the T&SC.

Action to be taken: All riggers are to familiarize themselves with these instructions and ensure the equipment is packed IAW the manufacturer's instructions.
