TECHNICAL BULLETIN #97

TECHNICAL BULLETIN #97

Item #1 - AAD Issues

There have been several issues concerning Automatic Activation Devices recently—from more than one manufacturer. All CSPA Riggers should be in close contact with manufacturers websites so as to remain up-to-date with current information regarding any safety issues.

AAD manufacturers are:

Airtec (Cypres) <http://www.cypres.cc/>

AAD (Vigil) <http://www.vigil.aero/official-statements>

Aviacom (Argus) <http://www.argus-aad.com/>

Item #2 – Rigger’s Forum

There will be an informal get together for Riggers in the Maritime Region prior to the CSPA Annual General Meeting. T&SC members will be on hand to discuss local and national issues with riggers in the area. This informal gathering will be held in the Petitcodiac Meeting Room of the Chateau Moncton, 100 Main Street, Moncton, NB E1C 1B9 from 19:30 to 22:30 on Thursday, February 24th, 2011.
